1966 Davidson College

Summer Session

The 1966 Davidson College summer session will be open to both men and women enrolled in other colleges and universities, to recent high school graduates, to teachers seeking to meet state requirements, and to adults of the vicinity. The courses are divided into three-week terms, thereby allowing the student to plan his summer activities with latitude.

All the courses offered are on the undergraduate level, and academic standards of the regular session are maintained.

While the majority of summer session students are Davidson undergraduates supplementing their work of the regular session, students enrolled in or accepted for enrollment in other institutions are encouraged to apply for admission. No entrance examinations are required. Entrance to the summer session does not, however, establish claim or priority to enrollment during the regular session.

As a church-related liberal arts college, Davidson is dedicated to the preparation of the individual student for a successful and meaningful life. The college seeks to instill in her students a sense of principle and a standard of values for living, and the entire college program is dedicated not only to the training of the mind, but to the development of the individual spiritually, physically, and socially.

Classes are kept small, and personal relationship between student and teacher is encouraged. Conferences and discussions with members of the faculty are encouraged.

The maximum load for the summer session is three hours per term for non-science courses and four hours per term for science courses.

CLASS SCHEDULE

Science courses meet Monday through Saturday each week. Non-science courses meet Monday through Friday during the first and second terms, and Monday through Saturday during the third term.

8:00 to 9:15—First period

9:20 to 10:35—Second period

HOUSING AND ENTERTAINMENT

In the summer at Davidson men are housed in the W. H. Belk Hall. Rooms in Belk Hall are furnished with beds, mattresses, desks, chests, and lamps. Students furnish linen, pillows, blankets, and towels, and the college provides janitorial service. Coeds can find suitable quarters in private homes of the community.

Married couples and adults can find suitable accommodations in the town of Davidson, and the college also maintains a limited number of units for married students. Many summer students commute from nearby communities.

The hub of student life and the center of social activities at Davidson is the David Owens College Union. During the summer, particularly, the Union is popular and busy. Planned programs for leisure time activities include motion pictures and dances, usually given out of doors on the patio. A lounge for reading and a hi-fi listening room for music lovers are among the facilities. Summer students take their meals in the Union cafeteria, and enjoy refreshments at the snack bar, which is open during the evening.

Sports enthusiasts will enjoy Johnston Gymnasium with its swimming pool, basketball and handball courts, and gymnastic facilities. Twelve fast-drying tennis courts and numerous softball diamonds augment the fine facilities afforded by the gymnasium to give opportunities for many different forms of recreation.

The 32,000-acre Lake Norman is located just west of the town of Davidson. It has more than 400 miles of shoreline and provides excellent boating, fishing, and swimming. Through the generosity of the Duke Power Company, a beautiful tract of land on the lake was given to the college in 1963. It is being developed as our Lake Campus, and is located five miles from the main campus. It provides presently a boat launching ramp, boat pier, swimming area and beach, picnic areas, and parking areas.
